Our Leadership

RadiantHire Solutions Owner/President Kelly Verzillo

Bio

Kelly Verzillo, Owner, President and founder, has over a decade of experience in recruiting, human resources and sales. She has been in the healthcare and medical industry for the majority of her career including a role as Vice President of Recruitment for a national physician search firm. She was an expert at recruiting physicians and other medical positions including nurse practitioners, physician assistants and nurses. She also has experience selling and recruiting for manufacturing, legal and other SMB industries. Her human resources roles and knowledge expand beyond recruiting to include preparation of job descriptions, creation of compensation plans, training, reference and background checking and on boarding plans for new hires. Also employee relations and management of staff.

Kelly has significant experience in sales and client relationship development. She has been in sales roles herself and has been involved in training and development of sales people.

Throughout her career she has continued to see small to medium sized businesses struggle to have the time, talent and resources required to meet their recruiting, HR and sales needs. This motivated her to start this company to be able to provide a high quality service at a fair market price allowing companies like you to hire quality talent quickly and effectively, train and retain staff to increase productivity and reduce cost and grow the sales organization to increase revenue without adding fixed costs.

Kelly is a member of the Rochester Technology Manufacturing Association, the Small Business Council of Rochester, and Tech Rochester and is a premium member of the Greece Regional Chamber of Commerce. She is committed to providing education and human resource expertise to area businesses.

In her free time you can find Kelly at the barn with her horses, hiking with her dog on the trails or kayaking on one of the many beautiful lakes.

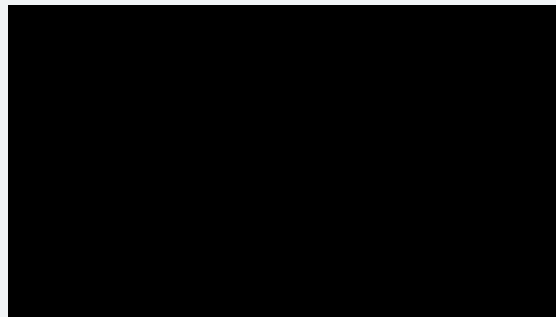

Client Testimonial

I have known Kelly for over 10 years and have seen her success in sales, recruiting and as a business owner. She connects well with clients, business owners and candidates and is unique in her ability to work with all types of people and at all levels of an organization. She has worked in many industries and understands the sales and staffing challenges that healthcare, manufacturing and technology sectors face. In addition to her experience, knowledge and track record of success she is easy and enjoyable to work with. It's exciting to see that Kelly and RadiantHire Solutions are here to help companies grow.
